Shreyas Vathul Subramanian

• 5642 Whitfield Chapel Rd. #102, Lanham, MD – 20706 • 937-581-1586 • shreyasvathul@outlook.com •

Director of Research at Robust Analytics, Inc.

EDUCATION

2012-2015	**PhD** (Aerospace Engineering)	Purdue University, West Lafayette, IN	**4.0/4.0**
2011-2012	**MS** (Mechanical Engineering)	Wright State University (WSU), Dayton OH	**4.0/4.0**
2007-2011	**BTech** (Mechanical Engineering)	National Institute of Technology Karnataka (NITK), India	**3.91/4.0**

EMPLOYMENT HISTORY

Employer	Position Held	Start Date	End Date	Work hours/week
Indian Institute of Science	Research Assistant	05/01/2010	08/01/2010	40
Flow Simulation Research Group	Graduate Research Assistant	08/15/2011	09/01/2012	20
System of Systems Laboratory	Graduate Research Assistant	09/15/2012	08/01/2015	20
First Year Engineering, Purdue	Head Teaching Assistant	08/25/2014	01/01/2015	20
Robust Analytics, Inc.	Aviation Systems Engineer	10/01/2015	10/01/2016	40
Robust Analytics, Inc.	**Director of Research**	**02/01/2017**	**Present**	**40**

RESEARCH PROJECTS

Year	Topic	Skills Involved
2017	IBM Watson based speech-to-text and sentiment analysis of Air Traffic Control (ATC) pilot communication for anomaly detection	Speech-to-text, signal processing, machine learning
2016	Outdoor and indoor passenger tracking implementation for SMART-NAS Test Bed Use Cases to Improve Passenger Experience (NASA NNA16BD94C)	Technology testing, Systems architecting, Google traffic layer, Network queueing models
2016	Point of contact for cloud-based flight data retrieval, cleaning and post-processing on Microsoft Azure with Microsoft partners	Cloud architecting, *Hive, Pig,* R*,* local code to cloud translation
2016	Designed and tested a GUI tool for assessing network cost impact of fleet-wide policy changes in an airline using historical (BTS) data	GUI design, data scraping, SQLite-Python hybrid design
2016	Created a Hidden Markov Model-based tool for monitoring real-time safety with state-dependent risk models in the terminal airspace	Data Visualization, Probability theory, Markov models, Python
2016	Helped design and test a custom Electronic Flight Bag solution for a NASA project involving air-ground communications to enable TBO	SE, Architecture design, software testing, Python, UI and UX design
2016	ATM cost Assessment Tool for NASA (Designed a fast-time Fuel Burn Model for commercial air transport and validated against industry standard software used for real-world flight planning)	Customized algorithms, V&V, Python, Integration
2015	Pilot Cockpit Display implemented on an Android Tablet for the NASA-Purdue MarsBuggy Team	Android programming, Human-machine interface, Testing
2015	Agricultural fixed wing UAV for Precision-agriculture with Multispectral Imaging	Design, Manufacturing, Systems Integration, Testing
2014	Safety Assessment for Separation Assurance in a Distributed Environment using ADSB communication (NASA project)	Agent Based Models, MATLAB, Fault Detection methods
2013	Aircraft Conflict Detection and Collision Avoidance using convex optimization demonstrated using multiple benchmark problems	Parallel computing, MATLAB programming, Visualization
2012	Multi-fidelity fidelity 3D modeling, analysis and simulation of Unmanned Aerial Vehicles from publicly available sparse data.	Surrogate modeling, Detailed 3D design, Data Analysis
2012	Working ADSB-in module under $10 using a TV dongle, and an open-source GNU software defined library for recording Aircraft data	Hardware-software interfacing, Cost effective design, Testing
2012	Impact of evolving Avionics on NextGen Air Transportation	Predict demand increase due to introduction of new technology

2011	Quantification of air trapping in lungs via Image-processing and Neural Networks.	MATLAB Image processing, GUI design, Algorithm Development
2011	Custom Multi-grid CFD solver in Fortran validated using the Driven Cavity benchmark problem.	CFD solver in Fortran from scratch, Multi-grid speed-up
2010	Construction of a Fully Controllable Single-servo UAV Platform	Design + manufacture of a novel UAV, Aerodynamic analysis
2010	Fabrication of an Autonomous Micro Aerial Vehicle Capable of Deploying a Video Surveillance Pod onto Exact Spatial Coordinates	Wrote a proposal worth $100K, Unique mission MAV design
2009	Structural Optimization of the *Sapthami* MAV with the help of CFD Tools followed by Flight Testing and Hardware-in-the loop simulation.	Optimization, Carbon fiber manufacture, Hardware-in-loop
2009	Design and Construction of an Automatic Irrigation System using the *ATMEGA32* microcontroller with Customized Moisture Sensors and Optical Sensors.	Coding hardware (ATMEGA) in C++, Product design, Product Marketing
2008	Application of Smoke-Tunnel Flow Visualization to Real World Problems such as Drag Reduction of a Cylinder and Pollution Control.	Wind tunnel and Smoke Tunnel experience, Interpretation of raw data

SOFTWARE SKILLS	(working knowledge, *currently learning*)
Microsoft Office / Editing Tools	Word, Excel, Powerpoint, Outlook, Visio, EndNote, Latex, *Access*
Programming Languages	C, C++, Python, Fotran 95, MATLAB, R, SAS, *Java, Google Go*
Web Programming Languages/ Libraries	HTML, PHP, CSS, JavaScript, Drupal, Dojo
Programming IDE	VS 2010, Eclipse, Komodo, SciLab, MATLAB, CUDA, SAS, RStudio, Pycharm
GUI Builders/ Android	MATLAB GUIDE, QT, Microsoft VS, AppMethod, Android SDK, Pencil
Data Visualization/ Plotting	Tecplot, Paraview, OpenGL, Google earth
Platform as a Service / Cloud	Worked with Azure, AWS, Google cloud, Heroku, RedShift
Parallel/ Cloud Computing	OpenMP, CUDA GPU, Amazon EC2, Azure Machine learning, Azure functions, Azure Elastic compute and storage, Heroku gears*, Hive, Spark*
3D Modeling (Professional Suites)	CATIA V5, Pro Engineer Wildfire, AutoCAD 2010, SolidWorks 2012, *Creo*
Structural Analysis	ANSYS Structural, ANSYS Explicit Dynamics, Abaqus, COMSOL
Aerodynamic Analysis	Ansys Workbench, Fluent, CFX, Autodesk Falcon, OpenFoam, Palabos, Xfoil direct and inverse airfoil design + wing design, *Star CCM+*
Control Analysis	Simulink, JSBSim, AVL
Meshing Software	enGrid, Meshlab, BlockMesh, SnappyHexMesh, Gmsh, ANSYS Meshing
MATLAB Toolboxes	Aerospace, Optimization, Parallel Computing, Image Processing, Statistics, Curve fitting, Simulink, Neural Network, System Identification
Optimization Toolboxes	Excel (Simplex, GRG, Evolutionary), CPLEX, Xpress, Arena, OpenMDAO
Open Source Libraries	OpenCV, SU2(fluids), Calculix (structural), *Impact* (crash analysis)
Robotics	AVR Studio, Virtual Cockpit, LogixPro, Kestrel Autopilot API, Android SDK
Systems Engineering	Discrete Agent Framework (DAF), Solidworks PLM, IBM Rational *DOORS*, Siemens PLM *Teamcenter*
Aerospace related	XFLR5, CEASIOM, AcBuilder, SimSAC, SUMO, AMB, FACET, ACES
Aerospace related(more)	NeoCASS, MotoCalc, DATCOM, FLOPS, SDSA
Requirements Management	Atlassian Jira, *IBM Rational DOORS, DXL Scripting*
Air Transportation System Tools	Sabre Flight Explorer, Sabre Flight Direct, Sabre eFM, custom Electronic Flight Bag (ECHO), WSI Fusion, WSI SWINDS data, FAA SWIM setup and access, *INM*

PRIZES AND HONORS

- Multiple awards for academic proficiency and course accomplishment through high school and college
- Wrote and won a grant worth Rs 200,000 for nation-wide Micro Air Vehicle development

- Wrote and won several NASA Phase I proposals and Phase II extensions worth more than $500K
- Dean's List - Maintained a 4.0 GPA in graduate school (M.S. and Ph.D.)
- 2015 Estus H. and Vashti L. Magoon Award for Excellence in Teaching

LEADERSHIP SKILLS AND OTHER INTERESTS

- Lead a team of 10 undergraduate students to teach and manage an Engineering class with 240 students
- Founder and Convener(head) of ***Flying Club*** at NITK
- Head of Drive-train Group and Electronics Core Group in the Purdue NASA Mars-Buggy competition
- Head of Aerodynamic Analysis team in the Purdue ASME Human Powered Vehicle Challenge
- Appointed to be a judge for the AAE RSS technical symposium at Purdue University, Aerospace Department
- Member of ***Music club, Robotics Club and AMES*** at NITK
- High school Volleyball, Ping pong and Football Team
- Performed as a vocalist in South Indian Classical and Light music concerts.
- Image Processing - Photoshop, Gimp, Inkskape, Image magic
- Motion Picture / Editing and Short movies- Sony Vegas, Movie Maker, Fruity Loops, VirtualDub, LightWorks
- Interested in web design, photography and 3D Animation, and App design
- Member of ***GENESIS***, a voluntary social help club

INTERNSHIP / INDUSTRY EXPOSURE (*apart from primary ones listed in Employment History)*

- ***BOEING*** Everett factory tour – B747, B767, B777, B787 Assembly line & Manufacturing Processes.
- **Ford F150** assembly line main factory tour
- **Selected** to experience ***BOSCH*** On-Track training (25 selected Nation-wide)
- Participated in Control Systems and Flight Mechanics Workshop organized by ***HONEYWELL***.
- **Internship** at ***EL FORGE*** (Metal forging and forming company that serves major vehicle and automotive component manufacturers and process industries, both domestic and overseas). Studied Complete Manufacturing Cycles of trademark company products such as Light Duty Crankshafts, Connecting Rods, Wheel hubs and Transmission parts.
- **Manufacturing Skills :** Formal training in woodworking, carving, Sheet-metal, Lathe, Band-saw, Circular Saw, CNC programming, Hydraulic and Pneumatic system design, Carbon Fiber and other composite manufacturing
- **Systems Engineering Skills :** Quality Function Deployment, Pugh's Method, ANOVA, Taguchi's Design of Experiments, Several Linear and Non-linear Optimization Algorithms, System-of-Systems, Requirements management
- **Experimentation :** Low speed wind tunnel (MAV analysis), High subsonic wind tunnel testing in Purdue Boeing wind tunnel (UAV analysis), Smoke tunnel testing, Structural / Impact Analysis (Carbon fiber fuselage testing), Flight Testing and UAV pilot experience (Eight Unmanned Aerial Vehicles, built and piloted), Hardware in the loop simulation.

PROFESSIONAL AFFILIATIONS

•**AIAA**•**IEEE**•**SASE** (Society of Asian Scientists and Engineers) •**CISA**(Center for Integrated Systems in Aerospace)
•**ASEE** •*Graduate Research Assistant* - **SoS**(System of Systems Laboratory) • **FSRG**(Flow Simulation Research Group)

PUBLICATIONS
